ANNEX

| Description | Classification CN code | Reasons |
|---|---------------------------|--|
| (1) | (2) | (3) |
| Slipper consisting of a textile (towelling material) upper and an outer sole of plastic with the central area covered with a thin layer of textile. On this textile covering which accounts for 58 % of the outer sole, there are raised PVC dots (See photographs No 603 A + B) (*) | 6404 19 10 | Classification is determined by General Notes 1 and 6 for the interpretation of the Combined Nomenclature, Note 4(b) to Chapter 64, additional note 2 to Chapter 64 and the wording of CN codes 6404, 6404 19 and 6404 19 10 The characteristics of the layer of textile material result in the outer sole having to be regarded as plastic soles. The layer of textile material does not have the characteristics of durability and/or strength usually required for the normal use of an outer sole These goods are therefore not classifiable within heading 6405 |
