

DISCIPLINES ON SERVICES DOMESTIC REGULATION

Scope of the Disciplines

1. These disciplines apply to measures by Members relating to licensing requirements and procedures, qualification requirements and procedures, and technical standards affecting trade in services.
2. These disciplines do not apply to any terms, limitations, conditions, or qualifications set out in a Member's Schedule pursuant to Articles XVI or XVII of the Agreement.
3. For the purpose of these disciplines, "authorization" means the permission to supply a service, resulting from a procedure to which an applicant must adhere in order to demonstrate compliance with licensing requirements, qualification requirements, or technical standards.

Submission of Applications

4. Each Member shall, to the extent practicable, avoid requiring an applicant to approach more than one competent authority for each application for authorization. If a service is within the jurisdiction of multiple competent authorities, multiple applications for authorization may be required.

Application Timeframes

5. If a Member requires authorization for the supply of a service, it shall ensure that its competent authorities to the extent practicable permit submission of an application at any time throughout the year.¹ If a specific time period for applying exists, the Member shall ensure that the competent authorities allow a reasonable period for the submission of an application.

Electronic Applications and Acceptance of Copies

6. If a Member requires authorization for the supply of a service, it shall ensure that its competent authorities:
 - (a) taking into account their competing priorities and resource constraints, endeavour to accept applications in electronic format; and
 - (b) accept copies of documents, that are authenticated in accordance with the Member's domestic laws and regulations, in place of original documents, unless the competent authorities require original documents to protect the integrity of the authorization process.

Processing of Applications

7. If a Member requires authorization for the supply of a service, it shall ensure that its competent authorities:
 - (a) to the extent practicable, provide an indicative timeframe for processing of an application;
 - (b) at the request of the applicant, provide without undue delay information concerning the status of the application;
 - (c) to the extent practicable, ascertain without undue delay the completeness of an application for processing under the Member's domestic laws and regulations;

¹ Competent authorities are not required to start considering applications outside of their official working hours and working days.

(d) if they consider an application complete for processing under the Member's domestic laws and regulations², within a reasonable period of time after the submission of the application ensure that:

- (i) the processing of the application is completed; and
- (ii) the applicant is informed of the decision concerning the application³, to the extent possible in writing⁴;

(e) if they consider an application incomplete for processing under the Member's domestic laws and regulations, within a reasonable period of time, to the extent practicable:

- (i) inform the applicant that the application is incomplete;
- (ii) at the request of the applicant, identify the additional information required to complete the application, or otherwise provide guidance on why the application is considered incomplete; and
- (iii) provide the applicant with the opportunity⁵ to provide the additional information that is required to complete the application;

however, if none of the above is practicable, and the application is rejected due to incompleteness, ensure that they so inform the applicant within a reasonable period of time; and

(f) if an application is rejected, to the extent possible, either upon their own initiative or upon request of the applicant, inform the applicant of the reasons for rejection and, if applicable, the procedures for resubmission of an application; an applicant should not be prevented from submitting another application⁶ solely on the basis of a previously rejected application.

8. The competent authorities of a Member shall ensure that authorization, once granted, enters into effect without undue delay, subject to applicable terms and conditions.⁷

Fees

9. Each Member shall ensure that the authorization fees⁸ charged by its competent authorities are reasonable, transparent, based on authority set out in a measure, and do not in themselves restrict the supply of the relevant service.

Assessment of Qualifications

10. If a Member requires an examination for authorization for the supply of a service, that Member shall ensure that its competent authorities schedule such an examination at reasonably frequent intervals and provide a reasonable period of time to enable applicants to request to take the examination. Having regard to the cost, administrative burden, and the integrity of the procedures involved, Members are encouraged to accept requests in electronic format to take

² Competent authorities may require that all information is submitted in a specified format to consider it "complete for processing".

³ Competent authorities may meet this requirement by informing an applicant in advance in writing, including through a published measure, that lack of response after a specified period of time from the date of submission of an application indicates acceptance of the application or rejection of the application.

⁴ "In writing" may include in electronic form.

⁵ Such opportunity does not require a competent authority to provide extensions of deadlines.

⁶ Competent authorities may require that the content of such an application has been revised.

⁷ Competent authorities are not responsible for delays due to reasons outside their competence.

⁸ Authorization fees do not include fees for the use of natural resources, payments for auction, tendering or other non-discriminatory means of awarding concessions, or mandated contributions to universal service provision.

such examinations, and to consider, to the extent practicable, the use of electronic means in other aspects of examination processes.

Recognition

11. Where professional bodies of Members are mutually interested in establishing dialogues on issues relating to recognition of professional qualifications, licensing or registration, the relevant Members should consider supporting the dialogue of those bodies where requested and appropriate.

Independence

12. If a Member adopts or maintains measures relating to the authorization for the supply of a service, the Member shall ensure that its competent authorities reach and administer their decisions in a manner independent from any supplier of the service for which authorization is required.⁹

Publication and Information available

13. If a Member requires authorization for the supply of a service, further to Article III of the Agreement, the Member shall promptly publish¹⁰, or otherwise make publicly available in writing, the information necessary for service suppliers or persons seeking to supply a service to comply with the requirements and procedures for obtaining, maintaining, amending and renewing such authorization. Such information shall include, *inter alia*, where it exists:
 - (a) the requirements and procedures;
 - (b) contact information of relevant competent authorities;
 - (c) fees;
 - (d) technical standards;
 - (e) procedures for appeal or review of decisions concerning applications;
 - (f) procedures for monitoring or enforcing compliance with the terms and conditions of licenses or qualifications;
 - (g) opportunities for public involvement, such as through hearings or comments; and
 - (h) indicative timeframes for processing of an application.

Opportunity to Comment and Information before Entry into Force

14. To the extent practicable and in a manner consistent with its legal system for adopting measures, each Member¹¹ shall publish in advance:
 - (a) its laws and regulations of general application it proposes to adopt in relation to matters falling within the scope of paragraph 1 of this Section; or

⁹ For greater certainty, this provision does not mandate a particular administrative structure; it refers to the decision-making process and administering of decisions.

¹⁰ For purposes of these disciplines, "publish" means to include in an official publication, such as an official journal, or on an official website. Members are encouraged to consolidate electronic publications into a single portal.

¹¹ Paragraphs 14 to 17 of this Section recognize that Members have different systems to consult interested persons and other Members on certain measures before their adoption, and that the alternatives set out in paragraph 14 of this Section reflect different legal systems.

- (b) documents that provide sufficient details about such a possible new law or regulation to allow interested persons and other Members to assess whether and how their interests might be significantly affected.
15. To the extent practicable and in a manner consistent with its legal system for adopting measures, each Member is encouraged to apply paragraph 14 of this Section to procedures and administrative rulings of general application it proposes to adopt in relation to matters falling within the scope of paragraph 1 of this Section.
16. To the extent practicable and in a manner consistent with its legal system for adopting measures, each Member shall provide interested persons and other Members a reasonable opportunity to comment on such proposed measures or documents published under paragraphs 14 or 15 of this Section.
17. To the extent practicable and in a manner consistent with its legal system for adopting measures, each Member shall consider comments received under paragraph 16 of this Section.¹²
18. In publishing a law or regulation referred to in paragraph 14 (a) of this Section, or in advance of such publication, to the extent practicable and in a manner consistent with its legal system for adopting measures, a Member is encouraged to explain the purpose and rationale of the law or regulation.
19. Each Member shall, to the extent practicable, endeavour to allow reasonable time between publication of the text of a law or regulation referred to in paragraph 14 (a) of this Section and the date on which service suppliers must comply with the law or regulation.

Enquiry Points

20. Each Member shall maintain or establish appropriate mechanisms for responding to enquiries from service suppliers or persons seeking to supply a service regarding the measures referred to in paragraph 1 of this Section.¹³ A Member may choose to address such enquiries through either the enquiry and contact points established under Articles III and IV of the Agreement or any other mechanisms as appropriate.

Technical Standards

21. Each Member shall encourage its competent authorities, when adopting technical standards, to adopt technical standards developed through open and transparent processes, and shall encourage any body, including relevant international organizations¹⁴, designated to develop technical standards to use open and transparent processes.

Development of Measures

22. If a Member adopts or maintains measures relating to the authorization for the supply of a service, the Member shall ensure that:
- (a) such measures are based on objective and transparent criteria¹⁵;
- (b) the procedures are impartial, and that the procedures are adequate for applicants to demonstrate whether they meet the requirements, if such requirements exist;

¹² This provision is without prejudice to the final decision of a Member that adopts or maintains any measure for authorization for the supply of a service.

¹³ It is understood that resource constraints may be a factor in determining whether a mechanism for responding to enquiries is appropriate.

¹⁴ The term "relevant international organizations" refers to international bodies whose membership is open to the relevant bodies of at least all Members of the WTO.

¹⁵ Such criteria may include, *inter alia*, competence and the ability to supply a service, including to do so in a manner consistent with a Member's regulatory requirements, such as health and environmental requirements. Competent authorities may assess the weight to be given to each criterion.

- (c) the procedures do not in themselves unjustifiably prevent the fulfilment of requirements;
and
 - (d) such measures do not discriminate between men and women.¹⁶
-

¹⁶ Differential treatment that is reasonable and objective, and aims to achieve a legitimate purpose, and adoption by Members of temporary special measures aimed at accelerating de facto equality between men and women, shall not be considered discrimination for the purposes of this provision.
