**List of products included in the arrangements referred to in Article 1(2)**

**CN code:** Notwithstanding the rules for the interpretation of the Combined Nomenclature, the description of products is to be considered as indicative, the tariff preferences being determined by the CN codes. Where ex CN codes are indicated, the tariff preferences are to be determined by the CN code and the description together. Entry of products marked with an asterisk is subject to the conditions laid down in the relevant Community provisions.

**Column G:** Products included in the general arrangements (Article 7). These products are listed either NS (non-sensitive in the meaning of Article 7(1)) or S (sensitive in the meaning of Article 7(2)). For reasons of simplification, products are listed in groups. These may include products for which Common Customs Tariff duties are exempted or suspended.

**Column E:** Products included in the special incentive arrangements for the protection of the environment (Article 8(3)). Where the general arrangements include a group of products while the special arrangements for the protection of the environment include only certain products of the same group, these products are also listed individually. In that case, the individual products are again shown as included in the general arrangements.

**Column D:** Products included in the special arrangements to combat drug production and trafficking (Article 10). For reasons of simplification, products are listed in groups. These may include products for which Common Customs Tariff duties are exempted or suspended in accordance with Article 7 or otherwise. Where the special arrangements to combat drug production and trafficking include a group of products while the general arrangements include only certain products of the same group, these products are also listed individually. In that case, the individual products are again shown as included in the special arrangements.
