

Notice of initiation of an anti-dumping proceeding concerning imports of polyester staple fibres originating in the People's Republic of China and Saudi Arabia

(2003/C 309/03)

The Commission has received a complaint pursuant to Article 5 of Council Regulation (EC) No 384/96 ⁽¹⁾, as last amended by Council Regulation (EC) No 1972/2002 ⁽²⁾ ('the basic Regulation'), alleging that imports of polyester staple fibres, originating in the People's Republic of China and Saudi Arabia ('the countries concerned'), are being dumped and are thereby causing material injury to the Community industry.

1. COMPLAINT

The complaint was lodged on 10 November 2003 by the Comité International de la Rayonne et des Fibres Synthétiques (CIRFS) ('the complainant') on behalf of producers representing a major proportion, in this case more than 40 %, of the total Community production of polyester staple fibres.

2. PRODUCT

The product allegedly being dumped is synthetic staple fibres of polyesters, not carded, combed or otherwise processed for spinning originating in the People's Republic of China and Saudi Arabia ('the product concerned'), normally declared within CN code 5503 20 00. This CN code is only given for information.

3. ALLEGATION OF DUMPING

The allegation of dumping for Saudi Arabia is based, in the absence of reliable data on domestic prices, on a comparison of a constructed normal value with the export prices of the product concerned to the Community.

In view of provisions of Article 2(7) of the basic Regulation, the complainant established normal value for the People's Republic of China on the basis of a constructed normal value in a market economy country, which is mentioned in paragraph 5.1(d) of this notice. The allegation of dumping is based on a comparison of normal value, thus calculated, with the export prices of the product concerned when sold for export to the Community.

⁽¹⁾ OJ L 56, 6.3.1996, p. 1.

⁽²⁾ OJ L 305, 7.11.2002, p. 1.

On this basis, the dumping margins calculated are significant for all exporting countries concerned.

4. ALLEGATION OF INJURY

The complainant has provided evidence that imports of the product concerned from the People's Republic of China and Saudi Arabia have increased overall in absolute terms and in terms of market share.

It is alleged that the volumes and the prices of the imported product concerned have, among other consequences, had a negative impact on the market share held and the level of prices charged by the Community industry, resulting in substantial adverse effects on the overall performance and the financial situation of the Community industry.

5. PROCEDURE

Having determined, after consulting the Advisory Committee, that the complaint has been lodged by or on behalf of the Community industry and that there is sufficient evidence to justify the initiation of a proceeding, the Commission hereby initiates an investigation pursuant to Article 5 of the basic Regulation.

5.1. Procedure for the determination of dumping and injury

The investigation will determine whether the product concerned originating in the People's Republic of China and Saudi Arabia is being dumped and whether this dumping has caused injury.

(a) Sampling

In view of the apparent large number of parties involved in this proceeding, the Commission may decide to apply sampling in accordance with Article 17 of the basic Regulation.

(i) Sampling for exporters/producers in the People's Republic of China

In order to enable the Commission to decide whether sampling is necessary and, if so, to select a sample, all exporters/producers, or representatives acting on their behalf, are hereby requested to make themselves known by contacting the Commission and providing the following information on their company or companies within the time limit set in paragraph 6(b)(i) and in the format indicated in paragraph 7 of this notice:

- name, address, e-mail address, telephone, and fax, and/or telex numbers and contact person,
- the turnover in local currency and the volume in tonnes of the product concerned sold for export to the Community during the period 1 January 2003 to 30 November 2003,
- the turnover in local currency and the sales volume in tonnes for the product concerned on the domestic market during the period 1 January 2003 to 30 November 2003,
- whether the company intends to claim an individual margin ⁽¹⁾ (individual margins can only be claimed by producers),
- the precise activities of the company with regard to the production of the product concerned,
- the names and the precise activities of all related companies ⁽²⁾ involved in the production and/or selling (export and/or domestic) of the product concerned,
- any other relevant information that would assist the Commission in the selection of the sample,

⁽¹⁾ Individual margins may be claimed pursuant to Article 17(3) of the basic Regulation for companies not included in the sample, Article 9(5) of the basic Regulation concerning individual treatment in cases involving non market economy countries, and Article 2(7)(b) of the basic Regulation for companies claiming market economy status. Note that claims for individual treatment necessitate an application pursuant to Article 9(5) of the basic Regulation and that claims regarding market economy status necessitate an application pursuant to Article 2(7)(b) of the basic Regulation.

⁽²⁾ For guidance on the meaning of related companies, please refer to Article 143 of Commission Regulation (EEC) No 2454/93 concerning the implementation of the Community Customs Code (OJ L 253, 11.10.1993, p. 1).

- an indication of whether the company or companies agree to their inclusion in the sample, which implies replying to a questionnaire and accepting an on-the-spot investigation of their response.

In order to obtain the information it deems necessary for the selection of the sample of exporters/producers, the Commission will, in addition, contact the authorities of the exporting country, and any known associations of exporters/producers.

(ii) Sampling for importers

In order to enable the Commission to decide whether sampling is necessary and, if so, to select a sample, all importers, or representatives acting on their behalf, are hereby requested to make themselves known to the Commission and to provide the following information on their company or companies within the time limit set in paragraph 6(b)(i) and in the formats indicated in paragraph 7 of this notice:

- name, address, e-mail address, telephone, and fax, and/or telex numbers and contact person,
- the total turnover in euro of the company during the period 1 January 2003 to 30 November 2003,
- the total number of employees,
- the precise activities of the company with regard to the product concerned,
- the volume in tonnes and value in euro of imports into and resales made in the Community market during the period 1 January 2003 to 30 November 2003 of the imported product concerned originating in the People's Republic of China and Saudi Arabia,
- the names and the precise activities of all related companies ⁽²⁾ involved in the production and/or selling of the product concerned,
- any other relevant information that would assist the Commission in the selection of the sample,

- an indication of whether the company or companies agree to their inclusion in the sample, which implies replying to a questionnaire and accepting an on-the-spot investigation of their response.

In order to obtain the information it deems necessary for the selection of the sample of importers, the Commission will, in addition, contact any known associations of importers.

(iii) *Final selection of the samples*

All interested parties wishing to submit any relevant information regarding the selection of the sample must do so within the time limit set in paragraph 6(b)(ii) of this notice.

The Commission intends to make the final selection of the samples after having consulted the parties concerned that have expressed their willingness to be included in the sample.

Companies included in the samples must reply to a questionnaire within the time limit set in paragraph 6(b)(iii) of this notice and must cooperate within the framework of the investigation.

If sufficient cooperation is not forthcoming, the Commission may base its findings, in accordance with Articles 17(4) and 18 of the basic Regulation, on the facts available.

(b) *Questionnaires*

In order to obtain the information it deems necessary for its investigation, the Commission will send questionnaires to the Community industry and to any association of producers in the Community, to the sampled exporters/producers in the People's Republic of China, to the exporters/producers in Saudi Arabia, to any association of exporters/producers, to the sampled importers, to any association of importers named in the complaint, and to the authorities of the exporting countries concerned.

(i) *Exporters/producers in Saudi Arabia*

All such interested parties should contact the Commission forthwith by fax, but not later than the time limit set out in paragraph 6(a)(i) of this notice, in order to find out whether they are listed in the complaint and, if necessary, request a questionnaire, given that the time limit set in paragraph 6(a)(ii) of this notice applies to all such interested parties.

(ii) *Exporters/producers claiming an individual margin in the People's Republic of China*

Exporters/producers in the People's Republic of China claiming an individual margin, with a view to the application of Articles 17(3) and 9(6) of the basic Regulation, must submit a completed questionnaire within the time limit set in paragraph 6(a)(ii) of this notice. They therefore have to request a questionnaire within the time limit set in paragraph 6(a)(i) of this notice. However, such parties should be aware that if sampling is applied to exporters/producers, the Commission may nonetheless decide not to calculate an individual margin for them, if the number of exporters/producers is so large that individual examination would be unduly burdensome and would prevent the timely completion of the investigation.

(c) *Collection of information and holding of hearings*

All interested parties are hereby invited to make their views known, submit information other than questionnaire replies and to provide supporting evidence. This information and supporting evidence has to reach the Commission within the time limit set in paragraph 6(a)(ii) of this notice.

Furthermore, the Commission may hear interested parties, provided that they make a request showing that there are particular reasons why they should be heard. This request must be made within the time limit set in paragraph 6(a)(iii) of this notice.

(d) *Selection of the market economy country*

In accordance with Article 2(7)(a) of the basic Regulation, it is envisaged to choose the United States of America as an appropriate market economy country for the purpose of establishing normal value in respect of the People's Republic of China. Interested parties are hereby invited to comment on the appropriateness of this choice within the specific time limit set in paragraph 6(c) of this notice.

(e) *Market economy status*

For those exporters/producers in the People's Republic of China who claim and provide sufficient evidence that they operate under market economy conditions, i.e. that they meet the criteria laid down in Article 2(7)(c) of the basic Regulation, normal value will be determined in accordance with Article 2(7)(b) of the basic Regulation. Exporters/producers intending to submit duly substantiated claims must do so within the specific time limit set in point 6(d) of this notice. The Commission will send claim forms to all exporters/producers in the People's Republic of China who have either been included in the sample or named in the complaint and to any association of exporters/producers named in the complaint, as well as to the authorities of the People's Republic of China.

5.2. Procedure for assessment of Community interest

In accordance with Article 21 of the basic Regulation and in the event that the allegations of dumping and injury caused thereby are substantiated, a decision will be reached as to whether the adoption of anti-dumping measures would not be against the Community interest. For this reason the Community industry, importers, their representative associations, representative users and representative consumer organisations, provided that they prove that there is an objective link between their activity and the product concerned, may, within the general time limits set in paragraph 6(a)(ii) of this notice, make themselves known and provide the Commission with information. The parties which have acted in conformity with the precedent sentence may request a hearing setting the particular reasons why they should be heard within the time limit set in paragraph 6(a)(iii) of this notice. It should be noted that any information submitted pursuant to Article 21 will only be taken into account if supported by factual evidence at the time of submission.

6. TIME LIMITS

(a) General time limits

- (i) For parties to request a questionnaire or other claim forms

All interested parties should request a questionnaire as soon as possible, but not later than 15 days after the publication of this notice in the *Official Journal of the European Union*.

Attention is drawn to the fact that the exercise of most procedural rights set out in the basic Regulation depends on the party's making itself known within the aforementioned period.

Companies selected in a sample must submit questionnaire replies within the time limits specified in paragraph 6(b)(iii) of this notice.

- (iii) Hearings

All interested parties may also apply to be heard by the Commission within the same 40 day time limit.

- (i) The information specified in paragraph 5.1(a)(i) and 5.1(a)(ii) samples should reach the Commission

within 15 days of the date of publication of this notice in the *Official Journal of the European Union*, given that the Commission intends to consult parties concerned that have expressed their willingness to be included in the sample on its final selection within a period of 21 days of the publication of this notice in the *Official Journal of the European Union*.

- (ii) All other information relevant for the selection of the sample as referred to in 5.1(a)(ii) must reach the Commission within a period of 21 days of the publication of this notice in the *Official Journal of the European Union*.

- (iii) The questionnaire replies from sampled parties must reach the Commission within 37 days from the date of the notification of their inclusion in the sample.

(c) Specific time limit for the selection of the market economy country

Parties to the investigation may wish to comment on the appropriateness of the United States of America which, as mentioned in paragraph 5.1(d) of this notice, is envisaged as a market-economy country for the purpose of establishing normal value in respect of the People's Republic of China. These comments must reach the Commission within 10 days of the date of publication of this notice in the *Official Journal of the European Union*.

(d) Specific time limit for submission of claims for market economy status

Duly substantiated claims for market economy status, as mentioned in point 5.1(e) of this notice, must reach the Commission within 21 days of the date of the selection of any sample or as determined by the Commission.

7. WRITTEN SUBMISSIONS, QUESTIONNAIRE REPLIES AND CORRESPONDENCE

All submissions and requests made by interested parties must be made in writing (not in electronic format, unless otherwise specified and must indicate the name, address, e-mail address, telephone and fax, and/or telex numbers of the interested party). All written submissions, including the information requested in this notice, questionnaire replies and correspondence provided by interested parties on a confidential basis shall be labelled as 'limited' ⁽¹⁾ and, in accordance with Article 19(2) of the basic Regulation, shall be accompanied by a non-confidential version, which will be labelled 'For inspection by interested parties'.

⁽¹⁾ This means that the document is for internal use only. It is protected pursuant to Article 4 of Regulation (EC) No 1049/2001 of the European Parliament and of the Council (OJ L 145, 31.5.2001, p. 43). 8. NON-COOPERATION

In cases in which any interested party refuses access to or does not provide the necessary information within the time limits, or significantly impedes the investigation, provisional or final findings, affirmative or negative, may be made in accordance with Article 18 of the basic Regulation, on the basis of the facts available.

Where it is found that any interested party has supplied false or misleading information, the information shall be disregarded and use may be made, in accordance with Article 18 of the basic Regulation, of the facts available. If an interested party does not cooperate, or cooperates only partially, and use of the best facts available is made, the result may be less favourable than if it had cooperated.

9. SCHEDULE OF THE INVESTIGATION

The investigation will be concluded, according to Article 6(9) of the basic Regulation within 15 months of the date of the publication of this notice in the *Official Journal of the European Union*. According to Article 7(1) of the basic Regulation, provisional measures may be imposed no later than nine months from the publication of this notice in the *Official Journal of the European Union*.

10. INVESTIGATION PERIOD

The investigation period for dumping covers the period from 1 January 2003 to 31 December 2003. Article 6(1) of the Basic Regulation stipulates that the investigation period should normally end immediately prior to the initiation of the proceeding. However, given the particular circumstances of this case, the Commission considered that it was more appropriate to select an investigation period coinciding with the calendar year 2003. According to the information available to the Commission, the calendar year corresponds to the fiscal year of most exporters and Community producers, which facilitates the collection of data and subsequent verifications. For this reason, and furthermore taking into account that the present investigation is initiated almost at the end of the year 2003, it was considered appropriate to use data of the calendar year, rather than the 12 months immediately prior to the initiation.
