BOX 1: State the full legal name and address including the name of the exporting Party where the exporter is located.

BOX 2: State the full legal name and address including the name of the exporting Party where the producer is located. If goods from more than one producer are included in the Certificate of Origin, list the additional producers, including their full legal names and addresses (including the name of the exporting Party where each producer is located). If the exporter or the producer wishes to maintain this information as confidential, state "Available to the authorised body on request". If the producer and the exporter are the same, complete the box with "SAME".

BOX 3: State the full legal name and address including the name of the importing Party where the consignee is located.

BOX 4: The information in this box corresponds to the shipment of the goods from the exporting Party to the importing Party. Complete the means of transport and route by specifying the departure date, transport vehicle number, port of loading and port of discharge, as far as known. In case the Certificate of Origin is issued retrospectively, this box shall be filled out.

BOX 5: Any additional information such as customer's order number, letter of credit number, etc. may be included. If a good is invoiced by an operator in a non-party, the full legal name of that operator shall be indicated in this box.

If there is not enough room for all information to be included in BOX 5 of the first page of the Certificate of Origin, BOX 5 of additional page(s) may be used.

In case of a certified true copy or a certificate issued retrospectively, the phrase "CERTIFIED TRUE COPY" or "ISSUED RETROSPECTIVELY" shall be printed, as the case may be.

BOX 6: State the item number and the number of items should not exceed 50.

BOX 7: The number and kind of packages shall be specified. If goods are not packed, state "In bulk". Provide a full description of each good. The description should be sufficiently detailed to enable the goods to be identified by the officers of the customs administration examining them and relating them to the invoice(s) description and to the HS description of the goods. When the description of the goods is finished, add at least three stars "*" or three slashes "\".

BOX 8: For each good described in BOX 7, identify the HS tariff classification to six digits.

BOX 9: For each good described in BOX 7, indicate the origin criterion on the basis of which the exporter claims that the good qualifies for preferential tariff treatment, in the manner shown in the following table:

BOX 11: Number(s) and date(s) of invoice(s) issued by the exporter or producer of the exporting Party or number(s) and date(s) of invoice(s) issued by an operator of a non-party shall be shown here. If an invoice contains all the goods indicated in BOX 7, it is sufficient to indicate only once in this box the number and date of the invoice.

BOX 12: This box shall be completed, signed and dated by the exporter.

BOX 13: This box shall be completed, signed, dated and stamped by the authorised body.
