

Inter-disciplinary Research and Experimental Development Services

1. How to provide inter-disciplinary research and experimental development services on natural sciences in the Mainland?

Hong Kong service suppliers (HKSS) are allowed to provide inter-disciplinary research and experimental development services on natural sciences in the Mainland on an equity joint venture, contractual joint venture or wholly-owned basis. Enquiries concerning how to provide inter-disciplinary research and experimental development services on natural sciences in the Mainland can be directed to :

The Ministry of Science and Technology of the People's Republic of China
(Website : <http://www.most.gov.cn/>)

As regards Guangdong, HKSS can enjoy national treatment to provide inter-disciplinary research and experimental development services on natural sciences as stated in the “Agreement between the Mainland and Hong Kong on Achieving Basic Liberalization in Trade in Services in Guangdong”. Enquiries concerning the application procedures and requirements can be directed to:

Department of Science and Technology and Department of Education of Guangdong Province
