

Notice of initiation of an anti-dumping proceeding concerning imports of trichloroisocyanuric acid (TCCA) originating in the People's Republic of China

(2004/C 178/02)

The Commission has received a complaint pursuant to Article 5 of Council Regulation (EC) No 384/96⁽¹⁾ (the basic Regulation), alleging that imports of trichloroisocyanuric acid (TCCA), originating in the People's Republic of China (the country concerned), are being dumped and are thereby causing material injury to the Community industry.

1. COMPLAINT

The complaint was lodged on 1 June 2004 by the European Chemical Industry Council (CEFIC) (the complainant) on behalf of producers representing a major proportion, in this case more than 45 % of the total Community production of TCCA.

2. PRODUCT

The product allegedly being dumped is trichloroisocyanuric acid (also referred to as 'symclosene' under the international non-proprietary name) and preparations thereof, originating in the People's Republic of China (the product concerned), normally declared within CN codes ex 2933 69 80 and ex 3808 40 20. These CN codes are only given for information.

3. ALLEGATION OF DUMPING

In view of the provisions of Article 2(7) of the basic Regulation, the complainant established normal value for the People's Republic of China on the basis of the price in a market economy country, which is mentioned in paragraph 5.1(d) of this notice. The allegation of dumping is based on a comparison of normal value, thus calculated, with the export prices of the product concerned when sold for export to the Community.

On this basis, the dumping margin calculated is significant.

4. ALLEGATION OF INJURY

The complainant has provided evidence that imports of the product concerned from the People's Republic of China have increased overall in absolute terms and in terms of market share.

It is alleged that the volumes and the prices of the imported product concerned have, among other consequences, had a negative impact on the quantities sold, the market share held and the level of prices charged by the Community industry, resulting in substantial adverse effects on the overall perfor-

mance, the financial situation and the employment situation of the Community industry.

5. PROCEDURE

Having determined, after consulting the Advisory Committee, that the complaint has been lodged by or on behalf of the Community industry and that there is sufficient evidence to justify the initiation of a proceeding, the Commission hereby initiates an investigation pursuant to Article 5 of the basic Regulation.

5.1. Procedure for the determination of dumping and injury

The investigation will determine whether the product concerned originating in the People's Republic of China is being dumped and whether this dumping has caused injury.

(a) Sampling

In view of the apparent large number of parties involved in this proceeding, the Commission may decide to apply sampling in accordance with Article 17 of the basic Regulation.

(i) Sampling for exporters/producers in the People's Republic of China

In order to enable the Commission to decide whether sampling is necessary and, if so, to select a sample, all exporters/producers, or representatives acting on their behalf, are hereby requested to make themselves known by contacting the Commission and providing the following information on their company or companies within the time limit set in paragraph 6(b)(i) and in the format indicated in paragraph 7 of this notice:

- name, address, e-mail address, telephone, fax and/or telex numbers and contact person,
- the turnover in local currency and the volume in tonnes of the product concerned sold for export to the Community during the period 1 April 2003 to 31 March 2004,
- the turnover in local currency and the sales volume in tonnes for the product concerned on the domestic market during the period 1 April 2003 to 31 March 2004,

⁽¹⁾ OJ L 56, 6.3.1996, p. 1. Regulation as last amended by Regulation (EC) No 461/2004 (OJ L 77, 13.3.2004, p. 12).

- whether the company intends to claim an individual margin ⁽¹⁾ (individual margins can only be claimed by producers),
- the precise activities of the company with regard to the production of the product concerned,
- the names and the precise activities of all related companies ⁽²⁾ involved in the production and/or selling (export and/or domestic) of the product concerned,
- any other relevant information that would assist the Commission in the selection of the sample,
- an indication of whether the company or companies agree to their inclusion in the sample, which implies replying to a questionnaire and accepting an on-the-spot investigation of their response.

In order to obtain the information it deems necessary for the selection of the sample of exporters/producers, the Commission will, in addition, contact the authorities of the exporting country, and any known associations of exporters/producers.

(ii) Final selection of the sample

All interested parties wishing to submit any relevant information regarding the selection of the sample must do so within the time limit set in paragraph 6(b)(ii) of this notice.

The Commission intends to make the final selection of the sample after having consulted the parties concerned that have expressed their willingness to be included in the sample.

Companies included in the sample must reply to a questionnaire within the time limit set in paragraph 6(b)(iii) of this notice and must cooperate within the framework of the investigation.

If sufficient cooperation is not forthcoming, the Commission may base its findings, in accordance with Articles 17(4) and 18 of the basic Regulation, on the facts available.

⁽¹⁾ Individual margins may be claimed pursuant to Article 17(3) of the basic Regulation for companies not included in the sample, Article 9(5) of the basic Regulation concerning individual treatment in cases involving non-market economy countries and Article 2(7)(b) of the basic Regulation for companies claiming market economy status. Note that claims for individual treatment necessitate an application pursuant to Article 9(5) of the basic Regulation and that claims regarding market economy status necessitate an application pursuant to Article 2(7)(b) of the basic Regulation.

⁽²⁾ For guidance on the meaning of related companies, please refer to Article 143 of Commission Regulation (EEC) No 2454/93 concerning the implementation of the Community Customs Code (OJ L 253, 11.10.1993, p. 1).

(b) Questionnaires

In order to obtain the information it deems necessary for its investigation, the Commission will send questionnaires to the Community industry and to any association of producers in the Community, to the sampled exporters/producers in the People's Republic of China, to any association of exporters/producers, to the importers, to any association of importers named in the complaint and to the authorities of the exporting country concerned.

Exporters/producers in the People's Republic of China claiming an individual margin, with a view to the application of Articles 17(3) and 9(6) of the basic Regulation, must submit a completed questionnaire within the time limit set in paragraph 6(a)(ii) of this notice. They therefore have to request a questionnaire within the time limit set in paragraph 6(a)(i) of this notice. However, such parties should be aware that if sampling is applied to exporters/producers, the Commission may nonetheless decide not to calculate an individual margin for them, if the number of exporters/producers is so large that individual examination would be unduly burdensome and would prevent the timely completion of the investigation.

(c) Collection of information and holding of hearings

All interested parties are hereby invited to make their views known, submit information other than questionnaire replies and to provide supporting evidence. This information and supporting evidence has to reach the Commission within the time limit set in paragraph 6(a)(ii) of this notice.

Furthermore, the Commission may hear interested parties, provided that they make a request showing that there are particular reasons why they should be heard. This request must be made within the time limit set in paragraph 6(a)(iii) of this notice.

(d) Selection of the market economy country

In accordance with Article 2(7)(a) of the basic Regulation, it is envisaged to choose Mexico as an appropriate market economy country for the purpose of establishing normal value in respect of the People's Republic of China. Interested parties are hereby invited to comment on the appropriateness of this choice within the specific time limit set in paragraph 6(c) of this notice.

(e) Market economy status

For those exporters/producers in the People's Republic of China who claim and provide sufficient evidence that they operate under market economy conditions, i.e. that they meet the criteria laid down in Article 2(7)(c) of the basic Regulation, normal value will be determined in accordance with Article 2(7)(b) of the basic Regulation. Exporters/producers intending to submit duly substantiated claims must do so within the specific time limit set in paragraph 6(d) of this notice. The Commission will send claim forms to all exporters/producers in the People's Republic of China named in the complaint and to any association of exporters/producers named in the complaint, as well as to the authorities of the People's Republic of China.

5.2. Procedure for assessment of Community interest

In accordance with Article 21 of the basic Regulation and in the event that the allegations of dumping and injury caused thereby are substantiated, a decision will be reached as to whether the adoption of anti-dumping measures would not be against the Community interest. For this reason the Community industry, importers, their representative associations, representative users and representative consumer organisations, provided that they prove that there is an objective link between their activity and the product concerned, may, within the general time limits set in paragraph 6(a)(ii) of this notice, make themselves known and provide the Commission with information. The parties which have acted in conformity with the precedent sentence may request a hearing setting the particular reasons why they should be heard within the time limit set in paragraph 6(a)(iii) of this notice. It should be noted that any information submitted pursuant to Article 21 will only be taken into account if supported by factual evidence at the time of submission.

6. TIME LIMITS
