

**Notice of initiation of an anti-dumping proceeding concerning imports of dicyandiamide originating in the People's Republic of China**

(2006/C 193/03)

The Commission has received a complaint pursuant to Article 5 of Council Regulation (EC) No 384/96 on protection against dumped imports from countries not members of the European Community ('the basic Regulation')<sup>(1)</sup>, as last amended by Regulation (EC) No 2117/2005<sup>(2)</sup>, alleging that imports of dicyandiamide (DCD), originating in the People's Republic of China ('the country concerned'), are being dumped and are thereby causing material injury to the Community industry.

### 1. Complaint

The complaint was lodged on 3 July 2006 by Degussa AG ('the complainant'), the sole producer in the Community of dicyandiamide.

### 2. Product

The product allegedly being dumped is 1-cyanoguanidine (dicyandiamide) (CAS RN 461-58-5) originating in the People's Republic of China ('the product concerned'), normally declared within CN code 2926 20 00. This CN code is only given for information.

### 3. Allegation of dumping

In the absence of production of the product concerned outside the Community and the People's Republic of China and in view of the provisions of Article 2(7) of the basic Regulation, the complainant established normal value for the People's Republic of China on the basis of the prices actually paid or payable in the Community for the like product, duly adjusted where necessary to include a reasonable profit margin. The allegation of dumping is based on a comparison of normal value, thus calculated, with the export prices of the product concerned when sold for export to the Community.

On this basis, the dumping margin calculated is significant.

### 4. Allegation of injury

The complainant has provided evidence that imports of the product concerned from the People's Republic of China have increased overall in absolute terms and in terms of market share.

It is alleged that the volumes and the prices of the imported product concerned have, among other consequences, had a negative impact on the level of prices charged by the Community industry, resulting in substantial adverse effects on the overall performance of the Community industry.

### 5. Procedure

Having determined, after consulting the Advisory Committee, that the complaint has been lodged by or on behalf of the Community industry and that there is sufficient evidence to justify the initiation of a proceeding, the Commission hereby initiates an investigation pursuant to Article 5 of the basic Regulation.

#### 5.1. Procedure for the determination of dumping and injury

The investigation will determine whether the product concerned originating in the People's Republic of China is being dumped and whether this dumping has caused injury.

##### (a) Sampling

In view of the apparent large number of parties involved in this proceeding, the Commission may decide to apply sampling in accordance with Article 17 of the basic Regulation.

##### (i) Sampling for exporters/producers in the People's Republic of China

In order to enable the Commission to decide whether sampling is necessary and, if so, to select a sample, all exporters/producers, or representatives acting on their behalf, are hereby requested to make themselves known by contacting the Commission and providing the following information on their company or companies within the time limit set in point 6(b)(i) and in the format indicated in point 7:

- name, address, e-mail address, telephone, and fax numbers and contact person,
- the turnover in local currency and the volume in tonnes of the product concerned sold for export to the Community during the period 1 July 2005 to 30 June 2006,
- the turnover in local currency and the volume in tonnes of the product concerned sold on the domestic market during the period 1 July 2005 to 30 June 2006,
- the total production in tonnes of the product concerned during the period 1 July 2005 to 30 June 2006,

<sup>(1)</sup> OJ L 56, 6.3.1996, p. 1.

<sup>(2)</sup> OJ L 340, 23.12.2005, p.17.

- whether the company intends to claim an individual margin <sup>(1)</sup> (individual margins can only be claimed by producers),
- the precise activities of the company with regard to the production of the product concerned,
- the names and the precise activities of all related companies <sup>(2)</sup> involved in the production and/or selling (export and/or domestic) of the product concerned,
- any other relevant information that would assist the Commission in the selection of the sample.

By providing the above information, the company agrees to its possible inclusion in the sample. If the company is chosen to be part of the sample, this will imply replying to a questionnaire and accepting an on-the-spot investigation of its response. If the company indicates that it does not agree to its possible inclusion in the sample, it will be deemed to not have co-operated in the investigation. The consequences of non-cooperation are set out in point 8 below.

In order to obtain the information it deems necessary for the selection of the sample of exporters/producers, the Commission will, in addition, contact the authorities of the exporting country and any known associations of exporters/producers.

#### (ii) Final selection of the sample

All interested parties wishing to submit any relevant information regarding the selection of the sample must do so within the time limit set in point 6(b)(ii).

The Commission intends to make the final selection of the sample after having consulted the parties concerned that have expressed their willingness to be included in the sample.

Companies included in the sample must reply to a questionnaire within the time limit set in point 6(b)(iii) and must cooperate within the framework of the investigation.

<sup>(1)</sup> Individual margins may be claimed pursuant to Article 17(3) of the basic Regulation for companies not included in the sample, Article 9(5) of the basic Regulation concerning individual treatment in cases involving non-market economy countries/economies in transition, and Article 2(7)(b) of the basic Regulation for companies claiming market economy status. Note that claims for individual treatment necessitate an application pursuant to Article 9(5) of the basic Regulation and that claims regarding market economy status necessitate an application pursuant to Article 2(7)(b) of the basic Regulation.

<sup>(2)</sup> For guidance on the meaning of related companies, please refer to Article 143 of Commission Regulation (EEC) No 2454/93 laying down provisions for the implementation of Council Regulation (EEC) No 2913/92 establishing the Community Customs Code (OJ L 253, 11.10.1993, p. 1).

If sufficient co-operation is not forthcoming, the Commission may base its findings, in accordance with Articles 17(4) and 18 of the basic Regulation, on the facts available. A finding based on facts available may be less advantageous to the party concerned, as explained in point 8.

#### (b) Questionnaires

In order to obtain the information it deems necessary for its investigation, the Commission will send questionnaires to the Community industry and to any association of producers in the Community, to the sampled exporters/producers in the People's Republic of China, to any association of exporters/producers, to the importers, to any association of importers named in the complaint and to the authorities of the exporting countries concerned.

Exporters/producers in the People's Republic of China claiming an individual margin, with a view to the application of Articles 9(6) and 17(3) of the basic Regulation, must submit a completed questionnaire within the time limit set in point 6(a)(ii) of this notice. They therefore have to request a questionnaire within the time limit set in point 6(a)(i). However, such parties should be aware that if sampling is applied to exporters/producers, the Commission may nonetheless decide not to calculate an individual margin for them, if the number of exporters/producers is so large that individual examination would be unduly burdensome and would prevent the timely completion of the investigation.

#### (c) Collection of information and holding of hearings

All interested parties are hereby invited to make their views known, submit information other than questionnaire replies and to provide supporting evidence. This information and supporting evidence has to reach the Commission within the time limit set in point 6(a)(ii).

Furthermore, the Commission may hear interested parties, provided that they make a request showing that there are particular reasons why they should be heard. This request must be made within the time limit set in point 6(a)(iii).

#### (d) Basis for determining normal value

In the absence of production of the product concerned outside the Community and the People's Republic of China, it is intended to base normal value, in accordance with Article 2(7)(a) of the basic Regulation, on any other reasonable basis, i.e. the prices actually paid or payable in the Community for the like product. Interested parties are hereby invited to comment on the appropriateness of this basis for establishing normal value within the specific time limit set in point 6(c).

(e) *Market economy status*

For those exporters/producers in the People's Republic of China who claim and provide sufficient evidence that they operate under market economy conditions, i.e. that they meet the criteria laid down in Article 2(7)(c) of the basic Regulation, normal value will be determined in accordance with Article 2(7)(b) of the basic Regulation. Exporters/producers intending to submit duly substantiated claims must do so within the specific time limit set in point 6(d). The Commission will send claim forms to all exporters/producers in the People's Republic of China named in the complaint and to any association of exporters/producers named in the complaint, as well as to the authorities of the People's Republic of China.

5.2. *Procedure for assessment of Community interest*

In accordance with Article 21 of the basic Regulation and in the event that the allegations of dumping and injury caused thereby are substantiated, a decision will be reached as to whether the adoption of anti-dumping measures would not be against the Community interest. For this reason the Community industry, importers, their representative associations, representative users and representative consumer organisations, provided that they prove that there is an objective link between their activity and the product concerned, may, within the general time limits set in point 6(a)(ii), make themselves known and provide the Commission with information. The parties which have acted in conformity with the precedent sentence may request a hearing setting the particular reasons why they should be heard within the time limit set in point 6(a)(iii). It should be noted that any information submitted pursuant to Article 21 will only be taken into account if supported by factual evidence at the time of submission.

6. *Time limits*(a) *General time limits*

- (iii) The questionnaire replies from sampled parties must reach the Commission within 37 days from the date of the notification of their inclusion in the sample.

(c) *Specific time limit for comments on the intended basis for establishing normal value*

Parties to the investigation may wish to comment on the appropriateness of basing normal value for the People's Republic of China on prices actually paid or payable in the European Community, as mentioned in point 5.1(d). These comments must reach the Commission within 10 days of the date of publication of this notice in the *Official Journal of the European Union*.

(d) *Specific time limit for submission of claims for market economy status and/or for individual treatment*

All written submissions, including the information requested in this notice, questionnaire replies and correspondence provided by interested parties on a confidential basis shall be labelled as 'Limited' <sup>(1)</sup> and, in accordance with Article 19(2) of the basic Regulation, shall be accompanied by a non-confidential version, which will be labelled 'For inspection by interested parties'.

Where it is found that any interested party has supplied false or misleading information, the information shall be disregarded and use may be made of the facts available. If an interested party does not cooperate or cooperates only partially and findings are therefore based on facts available in accordance with Article 18 of the basic Regulation, the result may be less favourable to that party than if it had cooperated.
