Chairman, Federation of Hong Kong Industries

「香港工商業獎－消費產品設計類別」已發展成為本地業界產品開發及設計的基準。大獎旨在推行及讚揚設計的重要性並鼓勵本地企業家開創新思維，以滿足廣大消費者對創新產品的不斷追求。

時至今天，製造商已不能單單依靠傳統的生產模式，必須運用智能技術以創出吸引及有用的設計。鑑於今年大獎吸引到來自各行業及商業範疇的高質素作品參賽，我認為這正正彰顯了大獎的基本精神。

要在具挑戰的市場上突圍而出，企業家必須了解創新、創意及轉型的重要性。同時，他們亦必須留意消費者的需求正越趨複雜，對技術的要求亦不斷提高。買家已不再滿足於標準的產品，他們渴求的是具智能及吸引力的產品，而越來越多製造商已作好充足準備去滿足他們的需求。

今年，大部分的參賽作品來自電子產品、電氣及家品類別，而中小企佔有其中主要份額。我對各參賽作品的巧妙設計及創造性感到滿意，這亦表示香港確實備有豐富的設計及人力資源。評審團要從眾多創新及多元的作品中選出得獎作品定非容易。

最後，我衷心感謝由沈祖堯教授領導的評審團致力為大獎作出公正的評審，亦再次恭賀各得獎作品及感謝各方的積極參與。

The Hong Kong Awards for Industries (HKAI) – Consumer Product Design Category has become a benchmark for local industries to attain improvement in product development and design. The Awards' purpose is to promote and recognise the importance of design and encourage local entrepreneurs to reach out to create new ideas and in doing so to satisfy an increasing consumer demand for innovative products.

Today, no manufacturer can solely rely on traditional production methods, it is essential to employ intelligent technologies and create attractive practical designs. I believe that based on the recognition from all sides of industry and commerce and such high standards reached by the participants, the Awards are achieving their aims.

To succeed in these challenging times, entrepreneurs are realising the importance of innovation, creativity and transformation. They also recognise that consumer demand is certainly becoming more sophisticated and the expectations from technology are higher than ever. No longer are buyers satisfied with standard products, they demand smart, attractive ones and there are more and more manufacturers prepared to go the extra mile to provide them.

Once again, this year the majority of entrants came from the electronics, electrical and homewares manufacturers with SMEs taking a major proportion. I have been impressed by the ingenuity of the participants of these Awards and this gives me great confidence that in Hong Kong we have a wealth of talent with great ability. The winning entries are so innovative and diverse that I am sure judging was a complex matter.

I would like to thank the panel of judges under the chairmanship of Prof Joseph Sung for the impartial and dedicated way in which they have carried out their duties. Also, may I congratulate the winners and say a big thank you to all those who participated.
