郭振華
香港工業總會主席
Jimmy Kwok
Chairman, Federation of Hong Kong Industries

今年「香港工商業獎」參賽者的創新精神再一次啟發了我們，他們的設計匠心獨運，表現出極高的設計水平。我們衷心祝賀各獎項得主，他們的設計意念和能力，實在值得讚揚。廠商現時面對各種挑戰，不少正銳意進軍極具潛力的內銷市場，他們深明產品不可單憑「由香港創製」這個品質信譽去取得成功，他們必須加強產品對消費者的吸引力。

設計師的角色是結合藝術、科學及技術，設計出新穎產品吸引消費者。事實上，設計不只關乎產品的外觀，也要顧及其功能。此外，設計師不單要滿足消費者的要求，也要考慮產品能夠以最佳和最具效率的工序製造。

「香港工商業獎」眾多得獎人正好反映香港擁有不少這些高質素人才。我們深信，廠商得到他們的專業支援，定能克服開拓新市場所遇到的各種困難。

在表揚優秀得獎作品的同時，我們認同產品設計表現了專業人才的創新和開拓精神。我們鼓勵各位得獎者繼續發揮創意，協助香港廠商在激烈競爭中保有優勢。

我謹代表工總感謝由郭位教授領導的評審委員會各位委員，參賽作品質素之高，著實為評審工作增添不少難度。我也感謝得獎者展示了香港具備的創意和設計能力，讓我們無論選擇走哪個市場方向，都能取得成功。

We are again inspired by the creative and innovative quality of the range of products presented to the Hong Kong Awards for Industries (HKAI). Our congratulations go to the winners of these awards for demonstrating such a high quality of design expression and ability. At a time when we are facing many different challenges and looking to introduce our products to the attractive Mainland domestic market, manufacturers are realising that if our products are to succeed, sustaining the 'Made by Hong Kong' quality is not enough, they must have greater appeal to consumers.

This is the role of the designer, to combine art, science and technology and create new products that are attractive to the consumers. Of course, design expression does not only concern the appearance of a product, but also its functions. Furthermore, the designer must not only consider consumers' needs, but how the product will be manufactured in the best and most efficient way possible.

We have witnessed from the award winners that such qualities are abundant in Hong Kong and we are confident that with such proficient support, our manufacturers will overcome any hurdle in opening up new markets.

In commending the excellence of the entries to these awards, we recognise that product design is the creative accomplishment and adventurous spirit of professionals, and urge them to continue to develop such imaginative ideas to keep Hong Kong manufacturers at the forefront of the drive for continued business success.

On behalf of the FHKI, I wish to thank the panel of judges under the chairmanship of Prof Way Kuo who had a major challenge faced with so many highly innovative products and ideas. Thanks again to the winners for showing that Hong Kong has the ideas and design ability to succeed in whichever market direction we choose to go.
